

Designed for use in roller shades and blinds, Reliavue™ Shades allow natural light into any room and artfully reduce unwanted heat and glare without obstructing the view. Unlike fabric shades, Reliavue Shades are both virtually transparent and energy efficient. Using the shades in the summer can save up to 15% on cooling costs. Winter heat loss can be reduced as much as 58%, resulting in year-round comfort for tenants and homeowners.

**BENEFITS OF RELIAVUE SHADES INCLUDE:**

- Unobstructed view
- Superior insulation
- Lower energy costs
- UV protection to help reduce fading
- Enhanced privacy and glare reduction
- Sleek modern styling

Clear Glass

Smooth Reliavue™ Shade

Produced by the world's largest manufacturer of high performance films, Reliavue Shades are available in a variety of constructions in both smooth and textured finishes to meet design requirements for both commercial and residential customers.

	Traditional Fabrics	Reliavue Shades

Daytime Privacy	✓	✓
Flame Retardant	✓	✓
Energy Saving		✓
Helps Prevent Fading		✓
Transparent		✓
Easy To Clean		✓
Hypo-allergenic		✓

**RELIAVUE SHADES VS. FABRIC SHADES**

Unlike traditional fabric shades, Reliavue Shades help block excess heat and glare, filter harmful UV rays, and reduce energy costs — all without interfering with your outside view.

The performance difference is in the design. Fabric shades absorb heat and radiate it back into the room. Reliavue Shades reflect that heat back out of the window and away from the living space for increased energy savings and comfort.

**WORKING WITH THE INDUSTRY LEADER HAS ITS ADVANTAGES**

- 1 Manufacturing Expertise and Technical Resources Located Globally
- 2 Consistent High Quality Shade Components
- 3 Dependable Product Availability
- 4 Outstanding Customer Service
- 5 Energy Conservation and Sustainable Practices
